10 years since last update	**10,000 Nagios alerts per second**	**2400 baud modem**	**75-tier architecture**
$60 QNAP and some positive thinking	**16 hour incident bridge.**	**1996 Java applet**	**3.5" floppy disk**
500-megabyte UDP packet	**A 50k line Bash script that's achieved self awareness**	**A Cisco router with a flaky chip**	**A cluster of applications on a cluster of servers**
A cron job that reboots the server every 5 minutes	**A firewall full of holes**	**A German installation of Windows NT4**	**global write lock**
home-rolled systemd replacement	**mint-in-box AOL trial CD**	**A posting on Craigslist "internet engineers" jobs forum**	**A proof that P=NP written in BASIC**

A self-aware PHP script	**A series of tiny shellscripts**	**A series of tubes**	**A server rack full of crushed dreams**
A shared root password	**A simple 15 level Hiera hierarachy**	**A turducken made entirely of bash scripts**	**A violation of the most basic engineering principles.**
A virtual machine running a virtual machine until it brings on the Singularity	**A WSDL from 2003**	**Accidentally the entire data center**	**Actually reading the manual**
Agile	**An epic caffeine bender**	**An Exchange email loop**	**An uncontrollable deluge of emails**
An untested restore process	**Apache 1.2 running as root**	**Arch linux in production**	**ASAP**

Beating the server into submission with your bare hands.	**Being acquired by Oracle**	**Blue Screen Of Death**	**Cache**
CAP Theorem	**Cloud 2.0**	**Cloud-based business strategy**	**COBOL**
Commenting every line of code	**Continuous deployment**	**Continuous integration**	**Corporate Source**
COTS Shareware	**cron jobs that edit cron jobs**	**Crowdsourced Architecture**	**De-linting source code**
Disaster Recovery	**Distributed Computing**	**DNS**	**Dropping tables on a Friday**

Elastic Load Balancers	**Emojis as identifiers**	**Enterprise Grade Bash scripts**	**Excessively long variable names**
Fail early, fail often	**Flux Capacitor**	**Friday afternoon deployment**	**Functional programming**
Git	**Growth hacking**	**Hackathons**	**Half open TCP connections**
Heartbleed	**High Availability**	**Home-grown monitoring solution**	**HTML5 vs Flash**
Hypertext Coffee Pot Control Protocol	**Hypervisors running hypervisors running hypervisors**	**IE6**	**Internet Explorer**

ISO 8601	It doesn't happen on my machine	Jenkins	Kernel panic
Leaky abstractions	Leap second mitigation	Little Bobby Tables	Losing the root password
Lotus123	Map-Reduce	Merge Conflicts	Microsoft Access over a WAN
Mutation of immutable data	Netscape Navigator	NullPointerException: null	OpenSSL
Packet loss	A page at 3 a.m.	Parsing HTML with regex	Penetration test

Perl 6	Post-mortems	Power Maintenance	Proxy
Python	Python datetime module	r/talesfromtechsupport	Read-only Fridays
Rebasing the entire repo	Rebooting All The Things	Regular Expressions	Re-implementing TCP over TCP
Replacing all dev machines with Raspberry Pis	Re-writing deployment scripts at 2 AM	Ruby	Running Openstack in Production
Running out of IPv4 addresses	Scope Creep	Script kiddies	Scrum Master

Servers that follow daylight savings time.	Significant whitespace	Silos	Single stepping through the kernel
smokeping	Snowflake server	Spaces and tabs in the same file	Sprint Planning
SQLite	ssh in a for loop	Stack trace generator	Syntax error
Sysadmins	Tech Debt Day	Temporary hotfixes	Testing in production
The Cloud	The gentle sound of weeping drifting from the server room	The last remaining Multics server on Earth	The next Y2K

The NSA	The Travelling Salesman Problem	The waterfall model	Thought leadership
traceroute	Turning it off and on again	UNDO UNDO UNDO	Unicode errors
Unix philosophy	Unknown source in your stack trace	Unlimited data plan	Unplugging a server and waiting to see who complains
VisualBasic DLLs	Windows for Workgroups	Windows ME	Works on my machine!
Write-only code	Yet another package manager	YoloDB	ZeroMQ over SSH

Zombie processes	**Being on Fire.**	**Skeletor.**	**Darth Vader.**
Figgy pudding.	**Five-Dollar Footlongs.**	**Free samples.**	**Repression.**
Prancing.	**The World of Warcraft.**	**Being fabulous.**	**Cybernetic enhancements.**
Finger painting.	**The Care Bear Stare.**	**Magnets.**	**The light of a billion suns.**
Catapults.	**Silence.**	**YOU MUST CONSTRUCT ADDITIONAL PYLONS.**	**Pop music.**

Teaching a robot to love.	**Object Permanence.**	**GoGurt.**	**Hot Pockets.**
Sunshine and rainbows.	**Emotions.**	**Flightless birds.**	**Frolicking.**
Raptor attacks.	**Swooping.**	**Vigorous jazz hands.**	**Mutually-assured destruction.**
The true meaning of Christmas.	**A time travel paradox.**	**Hope.**	**Fear itself.**
Shiny objects.	**The Force.**	**Science.**
